

C of C Report To Give Impetus To Airport Program

Report Showing Need Of Airport Improvements Is Sent To CAA Authorities

Impetus was given the long-aging airport improvement program, which is awaiting a federal aid grant, at the chamber of commerce directors meeting in the chamber building Tuesday night.

President Bill Graber read a report on the airport and the area including facts and figures pointing out the need of airport improvements and the importance of the crop dusting program which centers at the airport.

The program as originally organized hinges on local, county and federal aid. Harold A. Wilde, district airport engineer of the Civil Aeronautics Administration, instructed that a data report be submitted to impress the higher echelons of the need for the program.

Mrs. George Young, secretary, of the directors, said a copy of the report has been sent to Otto Gordon, representative of the State Aviation Office of the Internal Improvement Commission.

R. E. Holard, member of the chamber rice committee, reported that the proposed cooperative is progressing and that growers have signed to grow over 1000 acres of rice already.

Victor Greene of the Everglades Experiment Station and two veteran rice growers here have shown that raising rice is a "natural" in the Glades. Summer conditions here which are a draw back to producing other crops are favorable to the production of rice. He announced that another meeting on rice will be held tonight at the Elks lodge.

Mrs. Young reported that a four-color, full page advertisement (Continued on Page 4)

MOONSHINER FIRED IN MUNICIPAL COURT FRI.

Porfirio Guadalupe, who was charged with reckless driving, causing an accident and in possession of illegal whiskey (Moon-shine), was sentenced in Municipal Court Friday night.

Judge N. D. Lloyd fined Guadalupe \$200 for the first count and \$250 and court costs for possessing illegal whiskey.

The case of Baubilio R. Diaz, passenger in Guadalupe's station wagon, was dismissed on insufficient evidence.

The station wagon driven by Guadalupe, crashed into a car driven by Jane Norris a week ago Thursday night on the Palm Beach Road causing Miss Norris' car to swerve into the Hillsboro Canal.

When investigating the accident, police officers discovered "moonshine" in Guadalupe's possession.

Over 200 Attend Annual C of C Dinner Meeting

"Following timeless fundamentals in a community as in business or chosen endeavor means the difference between success and failure," Carl Anthony, past president of the West Palm Beach Chamber of Commerce, told over 200 persons who packed the Municipal Country Club last night for the annual local chapter of commerce membership meeting and dinner.

He emphasized that success is an outgrowth of many decisions which are based on, orderly, basic principles which govern the growth of a community as well as any other chosen business.

"It is the job of the chamber of commerce to direct the decisions of a community and make certain that these are governed by the principles," the guest speaker said.

"No place has greater opportunities than Palm Beach County," he has been estimated that 50,000 citizens will move into the area each year for the next ten years, and it is up to the business and professional men of Belle Glade to see that the (Continued on Page 4)

TWO ARRESTED FOR SELLING LIQUOR AFTER LEGAL HOURS HERE

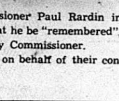

Police made two arrests in the colored section about 2:15 p. m. Sunday on the charge of selling whiskey after legal hours specified in city Ordinance 801.

Rosalee Booker and John N. Hooks, both colored, were apprehended selling whiskey on Sunday in Dave Lee's Building on S. W. 8th Street. Officers Hilton Bonard and V. Clark made the arrests.

Judge N. D. Lloyd sentenced Rosalee Booker to 60 days and \$100 and court costs and Hooks to 60 days and \$200 and costs in Municipal Court. Hooks' sentence provided that, on failure to pay the fine, an additional 60 days will be added.

WHITLOCK OPENS ACTIVE CAMPAIGN FOR CONSTABLE

Ray Whitlock officially announced his candidacy for election to constable of the 8th district through this paper this week. Having been connected for a number of years in the Glades in law enforcement work he feels he is fully qualified to serve in this capacity.

His organization, the constable, has grown so rapidly that the constable's office should be open at all times, and if elected, I will follow my policy of keeping the office open to the public.

Coming to the city in 1928, Whitlock first held a position here with Southern Bell Telephone Company. Since that time he has become active in farming activities.

His organizations include: Elks Club, Odd Fellows, Rebekahs and Lions Club. He has been an active member on the Glades County committee, which is working toward the munity swimming pool, and has headed the March of Dimes drive in the area for several years.

He points out that during his tenure of office, he has installed radio equipment in the constable car to increase efficiency of the service.

He is married to the former Marjorie Evans and has three sons.

A. M. Larrimore, manager of the State Employment Office here, announced this week several job openings in the area.

He said openings include: salesman of farm implements, manager of retail liquor store, electrical appliance salesman, service station attendants, dry cleaning presser, stenographers and typists.

Such a notice probably appeared just 24 years ago next Thursday night when the city church building in the area. Belle Glade was born amid dissension and confusion with probably over half the group attending the meeting standing pat against the idea of organizing a town.

Rice Cooperative To Organize At Meeting Tonight

Farmers Sign To Grow 1,935 Acres Of Rice In The Glades At Meet

Temporary directors of the Glades Rice Growers Cooperative said this week, the permanent organization of the project is scheduled on the agenda for the third rice growers meeting tonight at 8 in the Elks Lodge.

The meeting is open to all farmers and interested persons, they announced.

Machinery for the proposed cooperative, which was recently chartered, was set in operation at the second meeting last Friday night when 16 farmers became members and signed to grow rice.

Committing themselves to grow 1,935 acres where J. D. Johnson, Mr. Stoney, Carl Barnter, Bailey Brothers, Johnson and Turner, S. C. Johnson, H. Bonard, J. L. Murphy, J. Graber and Sons, W. H. Buss, J. W. Turner, J. Sullivan, W. Evans and Rogers, Jones and Blank, C. L. Williams, I. L. Price and T. Elder.

I. L. Price, member of the temporary board, said in order to have a rice processing plant with sufficient capacity to justify a minimum well-balanced operation, an investment of some \$50,000 was required. He said such a unit would be able to handle the rice produced on approximately 200 acres.

W. E. Roddy, specialist in farm machinery construction, of Greenville, Miss., told the group he missed them on the basis of the prospects and progress as outlined, which should result in a satisfactory plan for establishing the industry here on sound footing. He said that the rice processing plant cooperative effort would be able to avoid some of the hazards which growers in other sections have encountered.

Latter Jones reviewed the progress of the industry and cooperative to date for the benefit of those attending a rice meeting for the first time.

Town Of Belle Glade Incorporated Just 24 Years Ago Thursday Night

A meeting of all community people has been set for 8 p. m. Thursday night in the Community Methodist Church for the purpose of discussing the incorporation of the Town of Belle Glade and electing city officials and councilmen.

Such a notice probably appeared just 24 years ago next Thursday night when the city church building in the area. Belle Glade was born amid dissension and confusion with probably over half the group attending the meeting standing pat against the idea of organizing a town.

The incorporation meeting was an outgrowth of a meeting

held earlier in the Myers Hotel. Walter Greer presided and called the group to order. He wasted no time in opening the floor for nominations for mayor.

Quickly Roscoe Braddock spoke up. "Before we elect a mayor, I think it would be proper to decide first if we want to incorporate."

Greer answered, "You are quite right, Mr. Braddock. We will come to that in a few minutes, but first, who do you gentlemen wish to nominate for mayor?"

In the swift action that followed, Mr. C. Eggleston nominated Greer. S. A. Roberts seconded the nomination and the (Continued on Page 6)

I see by the brightly copy on the cover of the issue just about time for the Easter parade to disappear. Some folks say that the parade is a lot of fun, but it hardly fits in with the solemnity of the season. It may be so, but on the other hand, perhaps the desire for a parade is a natural expression of the human mind. Anyway, I hope the parade will be a success. I am sure it will be, for the season of the Easter parade is a time when we are all looking for new things.

MRS. FONTAINE HEADS CANCER DRIVE HERE

The 1952 cancer drive in Palm Beach County to raise \$12,000 for cancer research, cancer patient treatment and education in cancer detection was launched Tuesday, Mrs. Imogene Fontaine, local chairman, announced.

Mrs. Fontaine and Mrs. Mary Foy, manager of Station WSWN, attended a meeting of the Palm Beach County Unit, American Cancer Society Wednesday night at the Salfish Club, Palm Beach. Mrs. Foy offered unlimited time on the station for the cancer campaign.

Charles D. Pierce, Jr., county chairman of Lake Worth, said approximately \$4,000 of the \$12,000 goal in Palm Beach County will go directly to cancer research.

About \$1,000 will go for expendable supplies at the St. Mary's Hospital Tumor Clinic, and \$3,000 is set up for nursing service which provides a full time nurse for instruction in bedside care of cancer patients. In addition, the nurse serves at the clinic and as consultant at the unit's information center in West Palm Beach.

Approximately \$3,610 is allowed for the operation of the center and last year the unit spent \$584 for out-of-town patients' rooms and board and transportation when the patient was unable to pay for treatment.

There is plenty of space under the canopy for three cars, with five gas pumps and one diesel pump to serve the customers. Extra large space is provided for trucks and a modern 36 foot pit in the rear to accommodate the large semi-trailers, according to Clayton Waters, manager of the new station.

The building itself is of modern construction with slanting glass frontage and flower pots of Florida design made of slump brick around the bottom. The lighting is in keeping with the rest of the station and the tiled rest rooms are equipped with full length mirrors on the doors.

A. E. (Slick) Kirchman has announced a grand opening of the station in the near future and also states that a similar station is being built in Pahokee.

WORKMEN HAVE A WEIGHTY PROBLEM—Unloading giant section of Florida Power & Light Company's newest generator. Weighing 254,000 pounds, this was the largest single shipment ever handled by Florida East Coast Railway Co. Loaded on a specially designed flatcar with extra wheels and trucks, it had to follow a carefully charted route to avoid tunnels and sharp curves. As further precaution, the valuable shipment was moved only during daylight hours. Its installation at Florida Power & Light Company's Cutler plant is a major item in the Company's 1952 construction and expansion program estimated to cost over \$23,000,000 for the year's work.

U of F Engineers Test New Bridge Construction

A stronger, yet cheaper, method of construction of steel and concrete bridge is being tested by two University of Florida civil engineers.

The State Road Department thinks so much of the new idea that they plan to use the new method for the first time in the construction of the 18,000-foot Tampa Bay Bridge. And the two engineers, Prof. Sterling Bugg and Dr. Charles E. Cutts, are so convinced that improvements can be made that they are continuing experiments.

By the new method, concrete is poured in rectangular beams around cable wrapped in building paper. As the concrete hardens, it adheres to the paper and thus permits the cable to run free. The two engineers have found that the ultimate strength of steel cables in the new method is 200,000 pounds a square inch against 65,000 pounds by older methods.

They say the new method permits the use of stronger, but less steel. Less concrete is also needed and a saving of 20 per cent can be effected.

Capt. Rickenbacker Points To Apathy Of U. S. Voter

Commenting on the apathy of the average American voter, Capt. Eddie Rickenbacker, peaking in Miami recently, said:

"One of the greatest privileges we have today is the freedom of vote as we see fit. Shall we abuse it, or shall we put forth every effort to see that our friends, families and fellow-workers understand and exercise their rights?"

"I wonder what Benjamin Franklin and other founders of our country would say if they knew that less than half of the eligible citizens of these United States voted in the last presidential election in 1948."

"How can we hope to retain our freedoms and opportunities if we disregard our moral obligations and responsibilities to our country?"

"Let us stop fooling ourselves any longer. Let's sit down and quietly analyze ourselves. Only in this manner will we know how we failed ourselves and our country."

Commenting on Rickenbacker's remarks, Harold Cole, Executive Vice President of the Florida State Chamber of Commerce, points out that "We have an opportunity to redeem ourselves this year in the election of a President as well as congressional, state and local officials."

The State Chamber, like Captain Rickenbacker, is alarmed over the situation and is spearheading a statewide effort to "Get Out the Vote."

Be true to yourself and your country. REGISTER and VOTE this year.

379 STATE SCHOLARSHIPS VACANCIES REPORTED

A total of 379 State scholarship vacancies for institutions of higher learning are available for the school year 1952-53, the State of Florida Department of Education announced recently.

There are openings at the various college levels for the \$300 per year, \$400 Senior, and \$400 Lewis scholarships which may be used four years by persons preparing for teaching or service with city, county, or state governmental unit in Florida.

Examinations will be held in each county seat on April 1, and application forms may be secured at the County Superintendent's office.

\$18 Million in Mortgages Recorded in Fla. Last Year

A total of \$516,430,000 in Florida residential and commercial mortgage of twenty-thousand dollars or less was recorded last year.

This total was 4 per cent below the 1950 record, reflecting the Florida State Chamber of Commerce reports, the effect of federal building restrictions. The national figure was up 5 per cent.

The number of mortgages of this size recorded in Florida last year reached 88,326, down slightly from the 1950 recordings.

Dollar volumes of this type of mortgage business handled by the various original lenders are listed in this week's business review of the State Chamber's research and industrial division. Savings and loan associations loaned \$136,346,000 of the year's total, an increase of 19 per cent over 1950. Individuals loaned \$153,044,000, up 17 per cent, and commercial banks handled \$45,043,000, likewise up 17 per cent.

Insurance companies totaled \$91,790,000, and all other types of lenders including government agencies \$80,207,000, both down from 1950.

Because the majority of these mortgages of \$20,000 or less are secured by residential property, these data are considered a reasonable gauge of home financing activity.

GAME COMMISSION TO MEET IN TALLY MONDAY

A formal meeting of the Game and Fresh Water Fish Commission will be held in Tallahassee at 10 a. m. Monday, April 7, according to Ben L. McLaughlin, director.

All matters of interest to sportsmen and other individuals will be considered. All persons wishing to appear before the Commission are requested to apply in writing before April 5 so that their names and subjects may be placed on the official agenda. Subjects which are not placed on the agenda will not be considered, he stated.

Items included on the agenda to date are:

1. Prohibition of airboats on the marshes of Lake Okechobee during the duck-hunting season.
2. Repeat of a law specifying that duck hunters may not legally shoot from a boat in a blind if the motor is still attached to the boat.
3. Declaration of snook as a species of fresh-water fish.
4. Reports from biologists on the Commission's game management projects.

Other items will be included on the agenda as requested, McLaughlin said.

EMPLOYMENT SERVICE ISSUES JOB INVENTORY

The Florida State Employment Service under Dr. Fens A. Hathaway, recently issued a Job Inventory containing a list of several hundred available jobs in Florida ranging from a retail salesman at \$40 to \$50 per week, to electrical engineer (Tallahassee) at \$3600 to \$6000 per year.

Among the openings in other categories are biological chemist starting at \$4205; civil engineer, \$488 month; accountant, \$3300; mechanical draftsman, this country of cash values for

Two North Koreans Try To Surrender For 3 Weeks

Two grinning North Korean artillerymen who had been trying to surrender for three weeks explained how they finally managed to surrender to members of the First Marine Division... each time they started to leave somebody brought up more shells for them to fire from their 76mm gun... the night before their surrender. Allied planes destroyed the Red ammunition dump, leaving them idle... that morning the Reds' sergeant came around to put them into the infantry... he was killed by a mortar blast... "No one seemed to care what happened to us, so we just came over," they explained.

379 STATE SCHOLARSHIPS VACANCIES REPORTED

1 Maybe you think a little more of Comrade Joe than you do of Uncle Sam. Joe licks his chops when you stay away from the polls. In the last Presidential election 45 million qualified voters stayed away.

2 You think your time is too valuable to wait a few minutes for your turn at the polling place. You have more "important" things to do.

3 What the heck's the good of "my one little old vote"? Let George vote." And George decides to let you vote. So a lot of you's and Georges stay away from the polls—and lose an election.

4 You moved and forgot to register. That's a reason for not voting this election, but, folks, it really won't do to use that excuse a second time!

5 The wife likes one candidate and the husband likes the other. It's obvious your votes will cancel out each other, but each helps to swell the total of your favorite candidate.

6 You don't know anything about the issues and the candidates. It's nothing to be really proud of, but it doesn't take long to get up to date.

7 You think it's all "politics" anyway—and it certainly will be as long as you and folks like you stay home.

8 Your corn hurts—but remember a lot of freedom-loving Americans get to the polls on crutches and in wheel chairs.

SMATHERS NEWS LETTER

(Continued from Page 1)

I had an unusual letter from a Miami woman, M. S. Elizabeth McCrory, asking me, "When are the communists in America going to be interned in camps and treated as the traitors and snakes that they are?"

I sent this ready answer: "We have no concentration camps in this country. However, prosecutions are being carried on in the courts against people who are proven to be communists working to overthrow our government and they are now on the way to prisons. I might add that our prisons are too nice for them."

Plans For State Capital Additions Submitted

Additional plans for adding work space in the state capital have been presented to the cabinet by a group of legislators, the cost to be \$180,000.

Money to pay for double-decking the present old senate chamber, changing rooms on the second floor of the capital to give more office space for senate and house members, and to finish air-conditioning the capitol, will be voted by the 1953 legislature, they said, but can be borrowed from Internal Improvement Fund in the meantime. Final agreement will be worked out in the next few weeks.

Urges ACS Support

The American Cancer Society had only \$10,000 for cancer control in 1951, the year it was founded. Last year more than \$15,000,000 was given ACS by the public. The 1952 Cancer Crusade goal is \$16,000,000 for triple programs of research, service to patients and education. Your support is needed.

LEGION AUXILIARY SERVES LIONS CLUB

South Bay Legion Auxiliary members, Mrs. H. O. Mitchell, Mrs. C. J. Peacock, Mrs. Eric Hartline and Mrs. Clayton Waters, served a roast beef dinner to the Lions Club Thursday evening in the Legion Hall.

A protest was presented by the members of the Home Demonstration Club on the hazard to school children on crossing U. S. Highway No. 27 on the south side of the bridge. The club suggested that a warning light be placed at that crossing.

It was pointed out that the danger is caused not only by speeding motorists but also by indiscriminate parkers of farm trucks which obscure the highway that point and make it a blind crossing. The Lions were requested to present the matter by letter to the City Council at the next session on April 1.

Ten of the group will be reporting for the first time, and nine are men who were previously disqualified and have been recalled for examination under the new regulation, Local Board Memorandum 42.

Two volunteers also will leave with the group, Mrs. Quinn said. Registrants are to report at the local office, 365 S. Main Street, for roll call promptly at 9 a. m. Mrs. Quinn emphasized that the taken to Miami and returned by special, direct bus.

WORKERS PAID \$559 MILLION UNDER UNEMPLOYMENT IN 1951

The 18th Annual Report of the Florida Industrial Commission reveals the fact that "covered employees" under the Unemployment Compensation law were paid wages totalling \$559,279,906.78 in 1951. By "covered" is indicated only those workers who were employed by industries or firms employing 8 or more persons.

The tax derived from this payroll, netting \$8,727,470.00, is added to the reserve fund to be paid out only to persons unemployed through no fault of their own. The total withdrawals from this fund was \$6,161,669. The total amount in reserve in the fund December 31, 1951, was \$7,241,188.13. Interest credited from U. S. Government securities, in which the money was invested, amounted to \$1,615,500.49.

Weekly payments are now minimum \$5.00, maximum \$20.00 weekly for a limit of 10 weeks. The average payment in 1951 were about \$13.50, during the year the maximum for unemployed persons was \$15.00 per week.

The Legislature raised these payments by amending the law.

MIAMI U TAKES ENROLLMENTS IN SCHOOL OF MEDICINE

The University of Miami School of Medicine is now accepting applications for enrollment in its freshman class for the 1952 fall semester, according to President Bowman E. Smith.

Twenty-eight students will be accepted for this first-year class. Transfer students from other medical school are not eligible for admission.

Twenty-six of the students accepted must have resided in Florida for at least seven years. Not over five students will be admitted from any one county of the state. Legal proof

of County as well as State residence will be required.

"It is the University's hope that this opportunity for training in medicine may be utilized by students throughout the State of Florida," Dr. Ashe said. "To avoid disappointment, however, we urge students to check carefully the requirements for admission before making application."

While properly qualified students with three years of college work may be eligible for admission, Dr. Ashe advised that preference will be given students who hold the bachelor degree. A selection of students will be based entirely on merit and potential aptitude for the profession.

Tuition will be \$600 for the school year. Students desiring application forms should send their names and addresses at once to the Medical School, University of Miami, Coral Gables 46, Fla.

Applications and additional information will be mailed out promptly after receipt of name and address. The \$50.00 non-refundable application fee should be included when the application is sent to the University.

No application for the freshman class of next fall will be accepted after June 1, 1952. All supplementary papers must be on file by June 15. Applicants will probably be called for personal interview.

Applicants for the freshmen class of 1953 should specify this fact. Applications for this class will be accepted at any time after May 1, 1952 and must be filed not later than December 1, 1952.

FLA. RANKS HIGH IN NUMBER OF COLLEGE GRADUATE TEACHERS

State School Supt. Thomas D. Bailey reported recently that 93.89 per cent of Florida's 19,930 school teachers hold college certificates based on four or more years of college training.

He guessed that Florida is now in the top six states in the nation in the percentage of college-graduate teachers, based on these latest figures.

Only a comparative handful of Florida's school staff, 1,217, do not hold degrees.

A total of 18,886 teachers have four-year degrees. There are 3,712 teachers who have completed one year's college work beyond their four-year degree and 212 who have completed 6 years of college training.

Six years ago, when the Minimum Foundation Program was enacted into law, only 62.4 per cent of the State's teachers held college degrees.

Bailey called the rapid rise in teacher training tangible evidence of the soundness of the Minimum Foundation Program. "The teachers of Florida," he said, "by the record, are doing everything possible to improve their classroom abilities. And our children are the beneficiaries."

OF F RECIPIVES ROCKEFELLER GRANT

A grant for \$30,000 to finance the addition of an agricultural specialist to serve as combination professor-counselor to Latin American students at the University of Florida, Gainesville, has been made by the Rockefeller Foundation, University President J. Willis Miller reported last week.

The grant will provide for salary for this expert, yet to be named, covering a three year period. It will also provide for administrative expenses of the office, including the salary of a secretary.

The specialist who will be selected for the position may be either a North American who is proficient in the Spanish language and completely cognate of agriculture in Latin America, or a Latin American who likewise is bi-lingual and has had some acquaintance with North American teaching practices and procedures. This person is hoped to be added to the faculty by July 1.

CO. COMMISSION APPROVES SIX-MILE BRIDGE RIGHT-OF-WAY

First piece of right-of-way for a new approach to Six Mile Bridge was approved by the County Commission last week at the request of Commissioner Paul Rardin.

The board voted to accept the recommendation of County Engineer J. M. Boyd for procurement of a piece of right-of-way on the east side of the canal approaching the bridge.

The board also voted to accept the recommendation of County Engineer J. M. Boyd for procurement of a piece of right-of-way on the east side of the canal approaching the bridge.

ous auto accidents in recent months.

Rardin said the county board has made every effort to procure needed right-of-way for new approaches to the bridge, just as fast as possible.

Also in connection with Six Mile bridge, Commissioner Rardin told the board this week that flashing signals had been

installed at the span and were in operation. A recent check of the flasher, Rardin said, proved that they can be seen from several hundred yards from either side of the bridge. Said the Glades Commissioner, "I anticipate no further accident if the motoring public will heed the flashing signals since red means danger."

IN BITING WIND AND COLD AND SNOW... his numb fingers bent around an M-1 rifle... this soldier is living with the hardships suffered by General Washington's troops at Valley Forge 174 years ago.

His equipment is immeasurably better than any those first Yankees could have dreamed of. His chances of survival are equally improved. But, like them, he is doing a grim, hard job for the defense of his country.

Defense is your job, too. It is your job to maintain and support America's economic strength as this soldier is supporting her military strength.

It's an easy job... and one of the best ways to do it is by buying United States Defense Bonds regularly. For with bonds and other forms of savings you are making your self and your country stable and strong. And America must be kept strong—economically as well as militarily. For we must always remember... in this cold—warring world, peace is only for the strong!

The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

Peace is for the strong... Buy U.S. Defense Bonds now!

The "3D" enemies of every business:

It's funny how three of the greatest enemies to every business begin with the letter "D."

DISHONESTY of employees — burglary — robbery — forgery.

DESTRUCTION of money and securities by accident or design (including fire, flood or explosion).

DISAPPEARANCE of money or securities, possibly with no trace or evidence.

We can provide you with an America Farm policy to protect you against loss from these three dogged "D's."
